hello today im learning python

square barcket is there : yes

code mode is there : yes

if these two are there which indicates this current cell used for to write code only

if you write english i will throw error

go to top code mode after a drop down symbol is there

click on that

we can see markdown option

select it then we can not see any square bracket

Python

- esc+m will change code mode to markdown mode
- esc+y will change markdown mode to code mode
- shift+enter

Python

python

python

python

- Hi Prativa
- how are you
- how do you do

now i will show how to upload image

- but this will works for only some people
- dont worry

In []: CTRL+A
CTRL+C
CTRL+V
ESC+M
SHIFT+ENTER
